Photobox Group

Key themes

How next gen IdAM improves security, compliance and the bottom line

Securing digital identities, boosting compliance

Supporting new business initiatives

Who attended?

- 

Cyber-security
We have a 15-year track record of producing the events cyber-security professionals take seriously
- 

Risk Management
We attract senior risk officers with responsibility for information risk assessment and mitigation
- 

Fraud, Audit, Compliance
We provide the go-to events for fraud prevention and compliance risk owners at the world's key corporates
- 

Data Protection & privacy
We are a key venue for decision-makers with budget and purchasing authority

Agenda	
08:00	Registration and breakfast networking
08:50	Chairman's welcome
09:05	<p>What is going to keep IAM hot for the next 5 years and beyond</p> <p>Martin Ingram, Product Owner Identity & Access Management, Royal Bank of Scotland IAM is now more prominent than at almost any other time. We will look at how the following factors will keep it that way:</p> <ul style="list-style-type: none"> • The changing attack space • The importance of identity itself • The impact of Federation
09:30	<p>Can you enable SaaS based line of business agility, without compromising IT security?</p> <p>Daniel Power, Regional Account Manager, OneLogin</p> <ul style="list-style-type: none"> • The objective of this session is to enable IT to change managers', and employees', perception of being the department that says, 'No', to the department that says, 'Yes – and we will make everyone's life easier too.' • Focusing on understanding the challenge of Shadow IT, OneLogin will be looking at how to address these challenges at an organisational and technological level.
09:50	<p>Approaches to understanding identity threats and the value of identity verification</p> <p>Alastair Treharne, Digital Identity Advisor, Cabinet Office</p> <ul style="list-style-type: none"> • Analysing the identity threat landscape • Collaborating across the public, private and academic sectors • Designing identity models for governments, companies, and humanitarian organisations
10:15	<p>PAM: The critical missing piece in your security strategy</p> <p>Chris Clarkson, Senior Solutions Engineers, Bomgar</p> <ul style="list-style-type: none"> • Understand the critical importance of securing 'privilege' in your organisation • Leave with the tools to understand the scope of your organisation's Privileged Access Management (PAM) project • Gain top tips to prepare your PAM project business case for successful sign off
10:35	<p>Prevention is better than cure – leveraging IAM to eliminate phishing</p> <p>Mike Newman, CEO, My1Login</p> <ul style="list-style-type: none"> • The current approach to tackling phishing does not work • Join Mike Newman, CEO of My1Login, who will guide you through how to leverage your Identity & Access Management to eliminate phishing
10:55	Morning break and networking
11:30	<p>Toxic combinations beyond IT – unravelling the controls, people and processes required to implement effective toxic access governance</p> <p>Nicholas Tufts, Identity & Access Management Product Owner, and Chris Lovell, Toxic Combinations Manager, Lloyds Banking Group</p> <ul style="list-style-type: none"> • Process – The importance of a repeatable process for analysis, identification and remediation of toxicity for detective analysis at scale • People – Understanding and educating the business and people to enable toxic analysis and bridging the gap to the available technology • Controls – How to ensure that toxic combinations are managed to the satisfaction of the auditor in a cost effective way.
11:50	<p>Manage cloud risk with identity-driven security</p> <p>Ernesto Di Mauro, Senior Cloud Identity and Access Management Expert, Okta</p> <ul style="list-style-type: none"> • Staying a step ahead of the security challenges that the cloud presents • Building on a reliable foundation of well-established standards. How to future-proof our systems against evolving attacks • The evolution of Identity and Access Management, and emerging trends in identity and security

Agenda	
12:10	<p>CASE STUDY Parliament's journey to passwordless</p> <p>Yochana Henderson, Head of Digital Identity Management, UK Parliament</p> <ul style="list-style-type: none"> • The catalyst for change • Our journey: what went well and challenges overcome • Looking to the future: what's next for the passwordless programme?
12:30	<p>People and passwords – the risk and the opportunity</p> <p>Barry McMahon, International Product Marketing Manager, LogMeIn</p> <ul style="list-style-type: none"> • The compromised password landscape and how it's changing • Insights from the LastPass Global Security Report (2018) • Grasping the opportunity to turn employees into security evangelists
12:50	<p>Managing external identities within NHSBT</p> <p>Daniel Bhatia, Identity & Access Manager, NHS</p> <ul style="list-style-type: none"> • How NHSBT provided access for web applications to around 800 users in 30 different partner organisations • Use of Azure B2B within NHSBT • Challenges along the way
13:10	<p>Beyond security: zero trust – making the perimeter less lonely</p> <p>Richard Archdeacon, Advisory CISO, Duo Security</p> <ul style="list-style-type: none"> • Concept of zero trust or the BeyondCorp model • Why a zero trust model will reduce risk? • Key elements in implementing a zero trust approach
13:30	Lunch and networking
14:30	<p>EXECUTIVE PANEL DISCUSSION Implementing a successful IAM strategy</p> <p>Colin Brown, Identity and Access Management Delivery Lead, BBC Yochana Henderson, Head of Digital Identity Management, Parliament UK Gabriel McNamara, Identity and Access Management Senior Analyst, Carnival Andy Harris, Engineering Director, Osirium</p>
15:10	<p>What 'good' looks like</p> <p>Simon Moores, Director, Zentelligence</p> <ul style="list-style-type: none"> • Looking at the future through the promise of new technology • How innovation is changing identity management – along with everything else
15:40	<p>Agile delivery of IAM solutions into software product management</p> <p>Colin Brown, Identity & Access Management Delivery Lead, BBC</p> <ul style="list-style-type: none"> • Outline of IAM products delivered at the BBC • Corporate challenges of the Agile delivery • Agile success in a large evolving enterprise • Transitioning from delivery to product management
16:05	Afternoon break and networking
16:30	<p>EXECUTIVE PANEL DISCUSSION Third parties and toothless regulators: the scary reality of today's post GDPR landscape</p> <p>Chaired by: Simon Jenner, CISO, Booking.com Simon Wood, VP Cyber Investigations Manager, Barclays Jon Townsend, CIO, National Trust Simon Wright, Group Data Protection Officer, Photobox Group Paul Holland, Information Security Consultant, Hiscox</p>
16:50	<p>The genie's out of the bottle: the inconvenient truth about cyber-assurance</p> <p>Steve Benton, Deputy CSO, BT</p> <ul style="list-style-type: none"> • What are the cyber-metrics out there telling you? And can you trust them? • The role of cyber-assurance providers. Don't let metrics be your sole point of reference • Be careful what you wish for. In the marketplace, cyber-metrics will become increasingly influential. And affect your ability to win business • Does this, or should this, change your approach to cybersecurity?
17:10	<p>Inconvenient truths: challenges of IT and information security</p> <p>Phil Cordey, Group Head of IT Security, Inchcape</p> <ul style="list-style-type: none"> • How do you handle ever-changing risk? • Is your security infrastructure 'fit for purpose'? • Addressing the cyber-risk. Questions and solutions
17:30	Drinks reception and networking
18:30	Conference close
