

# Post event report

The 4<sup>th</sup> e-Crime & Cybersecurity  
Singapore

4<sup>th</sup> May 2017 | Singapore

## Strategic Sponsors

## Education Seminar Sponsors

“ The e-Crime Congress is a good event to catch up with peers and the topics covered are varied. Product promotion is kept to a minimal level during presentation by the vendors. Good to hear from different industries and the importance of information sharing. ”

Director Technology Risk Management, DTCC

“ Incredible session on converting technology risk to business opportunities appreciated by CEO and Boards. Simple and to the point. ”

Head of Information Security, Standard Chartered Bank

“ The sessions gave new insights into the trends, our approach in the ever-changing cybersecurity world. Meeting new people from a similar domain is a great opportunity and the input gained in the conference, I am sure, will get converted into tangible benefit for my organisation. ”

Business Information Security Officer, Citibank

Agenda

Education Seminars

**Speakers**

Sanjay Aurora,  
Managing Director of APAC  
**Darktrace**

Simon Brady,  
Managing Editor  
**AKJ Associates**

Baey Chin Cheng,  
Vice President Information Security  
**Singtel**

Alex Cheung,  
acting ANZ BISO and Senior Manager,  
Information Security &  
Risk Management  
**Johnson & Johnson**

Winston Chew,  
Director, Business Information  
Security Officer  
**GlaxoSmithKline**

Ted Egan,  
Vice President, Asia Pacific  
**ThreatMetrix**

Christian Karam,  
Director of Cyber Threat Intelligence at  
**UBS**

Martin Leo,  
Executive Director, Risk Management  
**Morgan Stanley Investment  
Management**

David Lynas,  
Chief Executive Officer,  
David Lynas Consulting Ltd  
**(SABSAcourses)**

Sebastian Madden,  
Group Director Cyber and Technology  
**PGI**

Ramesh Narayanaswamy,  
Group Chief Information Officer  
**Singpost**

Kunal Sehgal,  
APAC Head of Information Security  
& IT Risk  
**Schroders**

Alan Seow,  
Head of Cyber Security  
**Ministry of Communications and  
Information, Singapore**

Alex Tay,  
Head of ASEAN  
**Gemalto Enterprise & Cybersecurity**

Duncan Thomas,  
Director of Sales, APAC  
**PhishMe**

Balasubramanian Venkatramani,  
Product Manager  
**ManageEngine**, a division of Zoho Corp

**Key themes**

Securing email and social media

Securing employees with the right technology

Developing a regional strategy

The big picture

Securing hyper-connectivity

**Who attended?**

**Cyber-security**

We have a 15-year track record of producing the events cyber-security professionals take seriously

**Risk Management**

We attract senior risk officers with responsibility for information risk assessment and mitigation

**Fraud, Audit, Compliance**

We provide the go-to events for fraud prevention and compliance owners at the world's key corporates

**Data Protection & privacy**

We are a key venue for decision-makers with budget and purchasing authority

Agenda			
08:30	Registration and breakfast reception		
09:30	<p><b>Cybercrime: 10 years, what's changed, what hasn't changed and what's around the corner</b></p> <p><b>Christian Karam</b>, Director of Cyber Threat Intelligence at UBS</p> <ul style="list-style-type: none"> <li>• The digitalisation of crime: Have we increased our attack surface?</li> <li>• What hasn't changed is crime: Cybercrime is not new crime; it is old crime adapted to new techniques</li> <li>• What are the solutions?: Investigate the crime, don't just block it. And other ways to improve your incident response</li> </ul>		
09:50	<p><b>Collective security – Prairie Dogs vs Humans</b></p> <p><b>Duncan Thomas</b>, Director of Sales, APAC, PhishMe</p> <p>As the security industry has continued to underinvest in the human element of security, phishing has become the top attack vector for cybercriminals. In this presentation, Duncan Thomas will discuss:</p> <ul style="list-style-type: none"> <li>• Why the cybersecurity industry is broken</li> <li>• How to reduce susceptibility to human-targeted attacks</li> <li>• How to empower users to become human sensors to recognise and report suspected attacks</li> </ul>		
10:10	<p><b>The new era of cyber threats: The shift to self-learning, self-defending networks</b></p> <p><b>Sanjay Aurora</b>, Managing Director of APAC, Darktrace</p> <ul style="list-style-type: none"> <li>• The new age of silent, stealthy attacks that lie low in networks for weeks and months</li> <li>• Why legacy approaches, like rules and signatures, are proving inadequate on their own</li> <li>• How new 'immune system' technologies based on advanced mathematics and machine learning are being deployed today</li> <li>• Real-world examples of subtle, unknown threats that routinely bypass traditional controls</li> </ul>		
10:30	<p><b>Education Seminars   Session 1</b></p> <table border="0"> <tr> <td style="vertical-align: top;"> <p><b>PGI</b></p> <p><b>Bridging the cyber skills gap from within</b></p> <p><b>Sebastian Madden</b>, Group Director Cyber and Technology, PGI</p> </td> <td style="vertical-align: top;"> <p><b>SABSAcourses</b></p> <p><b>Transform the security conversation: Enablement, excellence &amp; value</b></p> <p><b>David Lynas</b>, Chief Executive Officer, David Lynas Consulting Ltd (SABSAcourses)</p> </td> </tr> </table>	<p><b>PGI</b></p> <p><b>Bridging the cyber skills gap from within</b></p> <p><b>Sebastian Madden</b>, Group Director Cyber and Technology, PGI</p>	<p><b>SABSAcourses</b></p> <p><b>Transform the security conversation: Enablement, excellence &amp; value</b></p> <p><b>David Lynas</b>, Chief Executive Officer, David Lynas Consulting Ltd (SABSAcourses)</p>
<p><b>PGI</b></p> <p><b>Bridging the cyber skills gap from within</b></p> <p><b>Sebastian Madden</b>, Group Director Cyber and Technology, PGI</p>	<p><b>SABSAcourses</b></p> <p><b>Transform the security conversation: Enablement, excellence &amp; value</b></p> <p><b>David Lynas</b>, Chief Executive Officer, David Lynas Consulting Ltd (SABSAcourses)</p>		
11:10	Refreshments and networking break		
11:40	<p><b>Cyber, it's a risky business: Cyber-scrutiny, enterprise risk and business value</b></p> <p><b>Winston Chew</b>, Director, Business Information Security Officer, GlaxoSmithKline</p> <ul style="list-style-type: none"> <li>• How to 'speak the language' of cyber, and translate it into quantifiable business risk and potential loss</li> <li>• Case study: The move from a technical to a business role, and the challenges and solutions this involves</li> <li>• The challenge of cyber metrics: How to make cybersecurity measurable</li> </ul>		
12:00	<p><b>Network to fight against network: Digital identity network to tell good customers from cybercriminals</b></p> <p><b>Ted Egan</b>, Vice President, Asia Pacific, ThreatMetrix</p> <ul style="list-style-type: none"> <li>• Malware and data breaches. Why they are real threats you need to know about</li> <li>• Solutions: How do you secure businesses and end users against account takeover, payment fraud and fraudulent account registrations?</li> <li>• Key benefits of being secure: An improved customer experience, reduced friction and revenue gain</li> <li>• How to lower your operational costs in the fight against cybercrime</li> </ul>		

Agenda			
<b>12:20</b>	<p><b>Securing the breach</b></p> <p><b>Alex Tay</b>, Head of ASEAN, Gemalto Enterprise &amp; Cybersecurity</p> <p>Organisations today must accept that cyber attacks and breaches will happen to them one day and that they must be prepared for them differently from before.</p> <ul style="list-style-type: none"> <li>• Perimeter security ALONE is no longer ENOUGH. Data is the new perimeter</li> <li>• Data is delivering more value than ever before in all organisations and becomes a prime target for hackers and other malicious attacks</li> <li>• Secure data and applications are the ultimate solution to the challenge of securing the breach</li> </ul>		
<b>12:40</b>	<p><b>Investing in cybersecurity: Cybersecurity from an investor perspective</b></p> <p><b>Martin Leo</b>, Executive Director, Risk Management, Morgan Stanley Investment Management</p> <ul style="list-style-type: none"> <li>• The case for investing in cybersecurity</li> <li>• Cyber as it relates to institutional investor risk: Examples from industry</li> <li>• How to integrate cybersecurity risk management within the enterprise framework</li> </ul>		
<b>13:00</b>	Lunch and networking		
<b>14:00</b>	<p><b>EXECUTIVE PANEL DISCUSSION</b>    <b>Securing cyberspace – a public private imperative</b></p> <p><b>Alex Cheung</b>, acting ANZ BISO and Senior Manager, Information Security &amp; Risk Management, Johnson &amp; Johnson</p> <p><b>Ramesh Narayanaswamy</b>, Group Chief Information Officer, Singpost</p> <p><b>Alan Seow</b>, Head of Cyber Security, Ministry of Communications and Information, Singapore</p> <p><b>Christian Karam</b>, Director of Cyber Threat Intelligence at UBS</p>		
<b>14:20</b>	<p><b>Cybercrime as a Service: Case studies on the industrialisation of cybercrime and its effect on business</b></p> <p><b>Kunal Sehgal</b>, APAC Head of Information Security &amp; IT Risk, Schroders</p> <ul style="list-style-type: none"> <li>• How can the Dark Web bring down your business? The sophistication of industrialised cybercrime</li> <li>• Is your organisation aware of the organised crime? Are your critical business assets being exchanged online?</li> <li>• Case studies and solutions</li> </ul>		
<b>14:40</b>	<p><b>Education Seminars   Session 2</b></p> <table border="1"> <tr> <td> <p><b>ManageEngine</b></p> <p><b>Privileged account management strategies to prevent security breaches</b></p> <p><b>Balasubramanian Venkatramani</b>, Product Manager, ManageEngine, a division of Zoho Corp</p> </td> <td> <p><b>SABSAcourses</b></p> <p><b>Transform the security conversation: Enablement, excellence &amp; value</b></p> <p><b>David Lynas</b>, Chief Executive Officer, David Lynas Consulting Ltd (SABSAcourses)</p> </td> </tr> </table>	<p><b>ManageEngine</b></p> <p><b>Privileged account management strategies to prevent security breaches</b></p> <p><b>Balasubramanian Venkatramani</b>, Product Manager, ManageEngine, a division of Zoho Corp</p>	<p><b>SABSAcourses</b></p> <p><b>Transform the security conversation: Enablement, excellence &amp; value</b></p> <p><b>David Lynas</b>, Chief Executive Officer, David Lynas Consulting Ltd (SABSAcourses)</p>
<p><b>ManageEngine</b></p> <p><b>Privileged account management strategies to prevent security breaches</b></p> <p><b>Balasubramanian Venkatramani</b>, Product Manager, ManageEngine, a division of Zoho Corp</p>	<p><b>SABSAcourses</b></p> <p><b>Transform the security conversation: Enablement, excellence &amp; value</b></p> <p><b>David Lynas</b>, Chief Executive Officer, David Lynas Consulting Ltd (SABSAcourses)</p>		
<b>15:20</b>	Refreshments and networking break		
<b>15:50</b>	<p><b>Managing your frenemies within</b></p> <p><b>Baey Chin Cheng</b>, Vice President Information Security, Singtel</p> <ul style="list-style-type: none"> <li>• Learning from past events: What history has taught us about humans and their bad cyber decisions</li> <li>• What happened? Leaving the door open for attacks, unhappy people and what they can do?</li> <li>• Closing the doors: What should we be aware of and what can we do to avoid being a 'frenemy'</li> </ul>		
<b>16:10</b>	<p><b>Are you prepared for cybernomics?</b></p> <p><b>Simon Brady</b>, Managing Editor, AKJ Associates</p> <ul style="list-style-type: none"> <li>• The tipping point of cyber: What's changing, what you need to know</li> <li>• What kind of CISO are you? (how valuable are you?)</li> <li>• Can the CISO be the next CEO?</li> </ul>		
<b>16:30</b>	Closing remarks		

Education Seminars	
<p><b>ManageEngine</b></p> <p><b>Privileged account management strategies to prevent security breaches</b></p> <p><b>Presenter:</b> Balasubramanian Venkatramani, Product Manager, ManageEngine, a division of Zoho Corp</p>	<p>To combat the rapidly evolving cybersecurity threats and to stay in control, IT divisions need to protect the privileged accounts, the keys to the IT kingdom. Improper management of privileged accounts could result in unauthorised access to IT resources and eventually land organisations in security and compliance trouble.</p> <p><b>What attendees will learn:</b></p> <ul style="list-style-type: none"> <li>• Changing threat landscape and attack patterns</li> <li>• How hackers and malicious insiders exploit administrative access</li> <li>• Strategies for detecting and mitigating the threats</li> <li>• Importance of real-time monitoring, session management and essential security controls</li> </ul> <p><b>The session also explains how to protect IT organisations by:</b></p> <ul style="list-style-type: none"> <li>• Setting up a secure, central repository of all privileged accounts</li> <li>• Establishing and automating policies around shared passwords</li> <li>• Allowing users to launch remote RDP, SSH, Telnet, and SQL console sessions without displaying their underlying passwords</li> <li>• Tracking privileged access with session recording and shadowing</li> </ul>
<p><b>PGI</b></p> <p><b>Bridging the cyber skills gap from within</b></p> <p><b>Presenter:</b> Sebastian Madden, Group Director Cyber and Technology, PGI</p>	<p>This session will explain how and why the cyber skills gap is growing and the impact it is having on countries and businesses. Companies that expect to fill cybersecurity vacancies through external recruitment are disappointed. The solution lies within organisations – building in house skills and retaining staff. Drawing on PGI’s experience of developing cybersecurity workforces for national units and multinational corporates, Sebastian Madden will set out a consistent, repeatable and measurable process through which companies and government departments can develop their own staff into cybersecurity professionals, and continue to develop them in line with business objectives and their own continuing professional development needs.</p> <p><b>What attendees will learn:</b></p> <ul style="list-style-type: none"> <li>• How to determine the roles and skills required in a cybersecurity work force</li> <li>• How to develop an in house cyber skills framework</li> <li>• How to match available training to staff development objectives</li> <li>• How to use this process to develop and retain staff</li> </ul>
<p><b>SABSAcourses</b></p> <p><b>Transform the security conversation: Enablement, excellence &amp; value</b></p> <p><b>Presenter:</b> David Lynas, Chief Executive Officer, David Lynas Consulting Ltd (SABSAcourses)</p>	<p>This session provides an overview of SABSA the world’s leading free-use, open source, Enterprise Security Architecture Framework. Providing ‘A Model to Engage, A Framework to Plan, and Method to Achieve’, it is used by industry and government in 60 countries and as a standard in many sectors. It creates a meaningful, workable strategy for protecting what matters most to stakeholders.</p> <p>This presentation is focused on using SABSA techniques to provide a fresh perspective for security as a business-enabler, delivering excellence and driving business value.</p> <p><b>What attendees will learn:</b></p> <p>How free SABSA industry-leading techniques can be used to:</p> <ul style="list-style-type: none"> <li>• Understand what really matters to stakeholders</li> <li>• Create a rich taxonomy of measurable goals and targets for security</li> <li>• Produce a strategic roadmap to attain security excellence</li> <li>• Demonstrate business-enabled security, balanced and aligned to risk &amp; opportunity appetite</li> <li>• Establish controls within a traceable, provable, measurable framework of business benefit</li> <li>• Deliver a fresh, meaningful perspective in communications with stakeholders at every level</li> </ul>
