Key themes

Cybersecurity priorities for hybrid working

Pass the audit or lose the business?

The need for more proactive security

More for less – getting smart with cybersecurity budgets

Are criminals winning the ransomware war?

Getting cloud migration right

Who attended?

Cyber-security
We have a 20-year track record of producing the events cyber-security professionals take seriously

Risk Management
We attract senior risk officers with responsibility for information risk assessment and mitigation

Fraud, Audit, Compliance
We provide the go-to events for fraud prevention and compliance owners at the world's key corporates

Data Protection & privacy
We are a key venue for decision-makers with budget and purchasing authority

Speakers

Hans Allnutt, Partner, DAC Beachcroft

Mark Ampleford, Managing Director, Barclay Simpson

Dean Armstrong QC, Head of Chambers, The 36 Group

Brett Ayres, Services Director, Teneo

Allan Campbell, CISO, Withersworldwide

Ian Dalby, Global Information Security & Governance Manager, Dentons

Steve Davies, Senior Manager – Cyber Security, DLA Piper

Sue Diver, Head of Information Governance, Simmons & Simmons

Mike Duff, CSO, Harneys

Mark Forrest, CEO, Cryptshare

Jonathan Freedman, Head of Technology & Security, Howard Kennedy

Dougie Grant, Senior Incident Coordinator, National Cyber Security Centre

Tanya Gross, Senior Managing Director – Cybersecurity, Data Analytics & eDiscovery, Ankura

Nathan Hayes, IT Director, Osborne Clarke

Karen Jacks, CTO, Bird & Bird

Mark Jones, CISO, Allen & Overy

Rhiannon Jones, Director, UK Data Protection & Privacy Lead, EY

Mark Lendon, Senior Vice President, Egress

Erez Liebermann, Data Solutions, Cyber and Privacy Co-Chair and Partner, Linklaters

Mariana Pereira, Director of Email Security Products, Darktrace

Brett Raybould, EMEA Solutions Architect, Menlo Security

Ryan Rubin, Senior Managing Director – Cybersecurity, Digital Forensics and Incident Response, Ankura

Geoff Russell, Head of Litigation, Nottinghamshire County Council

Steve Sandford, Senior Director – Cybersecurity, Digital Forensics and Incident Response, Ankura

Mike Schuricht, SVP Product, Bitglass

Ben Sigler, Partner, Stephenson Harwood LLP

Jason Steer, Director of EMEA Presales, Recorded Future

Agenda

08:00	Login and networking
08:50	Chairman's welcome
09:00	**EXECUTIVE PANEL DISCUSSION** **Legal security leaders**
	Ian Dalby, Global Information Security & Governance Manager, Dentons **Allan Campbell,** CISO, Withersworldwide **Nathan Hayes,** IT Director, Osborne Clarke **Mark Jones,** CISO, Allen & Overy • Securing the future of hybrid working • The challenges of Chambers – your new weakest link? • Making ransomware manageable
09:30	**Passing the cybersecurity bar: Securing sensitive data with self-learning AI**
	Mariana Pereira, Director of Email Security Products, Darktrace • How can the legal sector protect large volumes of sensitive data, in the face of double extortion ransomware? • How is self-learning AI thwarting fast-moving threats – from zero-day exploits on IoT devices, to account compromise on cloud and SaaS platforms – before they can do damage? • Real world examples of attacks on legal firms that have been neutralised by self-learning AI
09:50	**How to increase incident response efficiency with security intelligence**
	Jason Steer, Director of EMEA Presales, Recorded Future • Learn why incident response teams are overwhelmed with too many events to analyse every day • Working on the front lines of cyber-defence require security intelligence to help cut through the noise and respond quickly to 'real' threats • Understand why intelligence needs to embedded into your tools and workflows to save time
10:10	**Outside the ivory tower: How security teams can support radical change & digital transformation**
	Steve Davies, Senior Manager – Cyber Security, DLA Piper • Revisiting where security lives & reinforcing partnerships across the business • Challenging long established beliefs around risk to provide aircover for innovation • Reshaping the security team to better support rapid and radical change • Switching from a 'No' to a 'Yes, here's how' culture • Modernising compliance & assurance
10:25	**Education Seminars	Session 1**
	Bitglass **Implementing ZTNA with the Bitglass Platform** **Mike Schuricht,** SVP Product, Bitglass	**Cryptshare** **Secure all the way. How legal firms safeguard their communications cost-effectively!** **Mark Forrest,** CEO, Cryptshare, and **Geoff Russell,** Head of Litigation, Nottinghamshire County Council
10:55	Networking and refreshments
11:25	**Responding to ransomware: a view from the inside**
	Hans Allnutt, Partner, DAC Beachcroft Drawing upon experience from responding to hundreds of cyber-incidents and data breaches, we will explore the critical actions and decisions that a law firm should consider in the initial stage of responding to a ransomware incident, covering: • Step-by-step of a tried and tested response plan • What internal functions should be involved and external support may be needed? • What lessons can be learnt from others' mistakes? • What role can insurance play?
11:45	**Security designed for today's digital law firm**
	Brett Raybould, EMEA Solutions Architect, Menlo Security • Practical optimisation of security operations for a distributed workforce • Examples of proactive attack prevention to support digital innovation and efficiency and reduce human error • The benefits of securing all internet and email exchange at speed and scale • The value of zero trust in preventing ransomware attacks • Evolving sustainable Data Loss Prevention (DLP) strategy and execution for the cloud
12:05	**Practical steps to diversity and inclusion in cybersecurity for law firms**
	Karen Jacks, CTO, Bird & Bird • What's wrong with the current structure? • Practical steps to improvement and making a change • What the future will look like and why it will be better for business

Agenda

Time	Session
12:25	**Education Seminars | Session 2**

Ankura	**Egress**
Strengthening weak links in the supply chain	**Trading on trust: How Harneys are using email to protect client data and revenue generation**
Ryan Rubin, Senior Managing Director – Cybersecurity, Digital Forensics and Incident Response, **Tanya Gross,** Senior Managing Director – Cybersecurity, Data Analytics & eDiscovery, and **Steve Sandford,** Senior Director – Cybersecurity, Digital Forensics and Incident Response, Ankura	**Mike Duff,** CSO, Harneys, and **Mark Lendon,** Senior Vice President, Egress

Time	Session
12:55	Lunch and networking break

| **13:55** | **EXECUTIVE PANEL DISCUSSION** | **Lessons in legal cloud migration** |

Sue Diver, Head of Information Governance, Simmons & Simmons
Steve Davies, Senior Manager – Cyber Security, DLA Piper
Rhiannon Jones, Director, UK Data Protection & Privacy Lead, EY
Jonathan Freedman, Head of Technology & Security, Howard Kennedy

- Accepting the inevitable: enabling Cloud for the business
- Avoiding pitfalls – obvious and not so obvious
- What to do when Cloud is not the answer

| **14:20** | **Security 2021: The perfect storm?** |

Brett Ayres, Services Director, Teneo

- Already prime targets for hackers, today many law firms face a perfect storm when attempting to secure their digital assets and working practices as they transition back from fully remote working
- Mega trends, such as the changing threat landscape, digital business needs, widening attack surfaces and converging architectures are putting additional pressure on security teams
- And that's not to mention the mental health epidemic that's sweeping the globe, which research suggests has left IT professionals feeling stressed, overwhelmed, overworked and frustrated
- So, how can law firms remain secure affordably in today's Work From Anywhere environment? What about the technology convergence of SASE, Zero Trust, SD-WAN and Anywhere Operations?

| **14:40** | **Third parties and law firms: Your real exposure** |

Erez Liebermann, Data Solutions, Cyber and Privacy Co-Chair and Partner, Linklaters

- What can a law firm do with respect to vetting third parties in the cyber realm?
- Incident response and third parties: do you have any leverage?
- Liabilities stemming from third-party failures
- The third parties that are on your side: working with these vendors

| **15:05** | **The hidden cyber-traps of the flexible workplace – law firms beware** |

Dean Armstrong QC, Head of Chambers, The 36 Group

- Is your firm's security enough?
- Is it ever safe for lawyers to use personal devices for work?
- The future: sophistication of attacks and attackers and enhanced obligations on legal professionals
- Not someone else's problem, the significance of reputational damage for a breached law firm

| **15:30** | Networking and refreshments |

| **16:00** | **Delegates will be able to choose from the following topics:** |

We have been breached! … How bad is it?	**Cybersecurity: an overview of the applicable legal framework**
Dougie Grant, Senior Incident Coordinator, National Cyber Security Centre	**Ben Sigler,** Partner, Stephenson Harwood LLP
- What is the problem? – Evolving cyber-threat and the growth of ransomware - What can happen? – The impact & consequences – case studies - Shall I pay the extortion demand? – To pay or not to pay? Advantages and consequences - What do we do? – The protective and response required - Who do I go to for help? – The UK response; who can help	- The UK legal framework in respect of cybersecurity generally - The UK legal framework applicable to legal services providers - What are 'appropriate technical and organisational measures to ensure a level of security appropriate to the risk'?

| **16:20** | **Delegates will be able to choose from the following topics:** |

Securing the right team	**Ransomware**
Mark Ampleford, Managing Director, Barclay Simpson	**Fireside chat with Nathan Hayes,** IT Director, Osborne Clarke
- The market: the real data - What are you worth and how to add value? - The secret to getting the right team	- Getting 'basic' cyber-hygiene right - The role of threat intelligence in ransomware defence - The changing face of ransomware insurance

Time	Session
16:40	Closing remarks and final networking break
17:00	Conference close

Education Seminars

Ankura

Strengthening weak links in the supply chain

Ryan Rubin, Senior Managing Director – Cybersecurity, Digital Forensics and Incident Response, **Tanya Gross,** Senior Managing Director – Cybersecurity, Data Analytics & eDiscovery, and **Steve Sandford,** Senior Director – Cybersecurity, Digital Forensics and Incident Response, Ankura

Securing the extended enterprise remains a challenge. In 2021, we see examples of how cyber-exposures at suppliers have significantly impacted companies in the legal sector. The key question is what else can law firms be doing to reduce risks related to their supply chain. Join Ankura experts in this presentation as we discuss several challenges including traditional questionnaires and audits, lack of visibility and shadow practices and introduce some practical strategies to help further manage incident response and third-party risk.

- Prioritising and triaging dependencies on third parties
- Challenges of the CISO day job
- 'Back to basics' – risk-based third-party assurance programmes
- Use of OSINT and threat intelligence for an 'outside in perspective'
- Data governance tactics & techniques

Bitglass

Implementing ZTNA with the Bitglass Platform

Mike Schuricht, SVP Product, Bitglass

Hear about Bitglass' Zero Trust Network Access (ZTNA) product vision and how its integration into a single platform can simplify SASE while improving overall functionality. This session will include a deep dive into the core technology principles of zero-trust network access and how it can be applied in practice by leading security teams.

- Find out what is ZTNA and how it has developed
- How can you benefit from using single SASE platform to secure your cloud applications?
- See practice examples of securing your cloud applications

Cryptshare

Secure all the way. How legal firms safeguard their communications cost-effectively!

Mark Forrest, CEO, Cryptshare, and **Geoff Russell,** Head of Litigation, Nottinghamshire County Council

Do you want to know how technology can be used to overcome the challenges of cost, complexity, and time to ensure crucial security for digital communication? In this interactive Q&A webinar, Geoff Russell (Head of Litigation at Nottinghamshire County Council) will answer questions and discuss how your organisation can successfully transition to a paperless office.

- Paperless office at Nottinghamshire County Council
- Overcoming challenges of implementing a digital office
- How to save money and resources at the same time
- How to increase user acceptance in digital communication

Egress

Trading on trust: How Harneys are using email to protect client data and revenue generation

Mike Duff, CSO, Harneys, and **Mark Lendon,** Senior Vice President, Egress

Email is the pillar the 'always-on' legal industry has built client communication on while entire firms continue to work remotely. 91% of legal professionals say the pandemic has increased their reliance on email – and not just during the working day. 93% say they use a mobile device to email out of hours, with 69% acknowledging they feel pressured to reply to emails as quickly as possible.

In direct correlation, 90% of law firms report they've experienced an email data breach in the last 12 months, leading to increased pressure for 62% firms to provide assurance to their clients that confidentiality can be protected on email.

Join this webinar to hear Mike Duff, CSO at Harneys, discuss the pivotal role of email for law firms during the pandemic and the security risks this has created. In conversation with Mark Lendon, Senior VP of Sales at Egress, Mike will also examine how law firms can use intelligent technology to take their email security strategy from reactive to proactive and provide a differentiating service to clients that protects revenue streams.

- The role of email for modern law firms
- The COVID-19 catalyst for remote working in legal
- Overview of email security risks for law firms
- How email security investments act as a revenue protector
- The need for intelligent email DLP for law firms to protect client confidentiality on email
