Post event report

Strategic Sponsor

censys

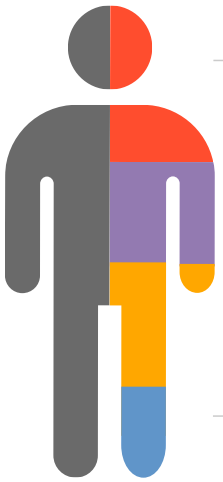
CLAROTY

EASYDMARC

Key themes

- Defending against the latest ransomware variants
- Transitioning OT to the Cloud?
- Achieving visibility across ecosystems
- OT and the regulations
- Why zero trust, isolation and segmentation are key
- Pen testing for OT / SCADA

Who attended?



Cyber-security
We have a 20-year track record of producing the events cyber-security professionals take seriously

Risk Management
We attract senior risk officers with responsibility for information risk assessment and mitigation

Fraud, Audit, Compliance
We provide the go-to events for fraud prevention and compliance owners at the world's key corporates

Data Protection & privacy
We are a key venue for decision-makers with budget and purchasing authority

Speakers

Dr. Hans-Martin von Stockhausen,
Principal Key Expert for Cybersecurity
Siemens Healthineers

Eltjo Hofstee,
Global Director Sales
EasyDMARC

Manit Sahib,
Ethical Hacker
The Global Fund

Martin Jarvis,
Incident Management Lead, Cyber Security Operations Centre
NHS England

Nasser Arif,
Cyber Security Manager
LNWUH NHS Trust & THH NHS Foundation Trust

Nick Palmer,
Technical Lead, EMEA
Censys

Prakhar Chandra,
Cyber Security Business Partner, CISO Function
NHS England

Seema Srihari,
Information Governance Manager & DPO
North East Ambulance Service NHS Foundation Trust (NEAS)

Ty Greenhalgh,
Industry Principal – Healthcare
Claroty

Agenda

09:20	Chair's welcome
09:30	**An insight into securing healthcare CNI**
	Prakhar Chandra, Cyber Security Business Partner, CISO Function, NHS England • How do we identify our CNI/mission critical systems • The 3 line of defence model • Major threats and challenges facing our CNI
09:50	**Post-market cyber-transparency for medical devices**
	Dr. Hans-Martin von Stockhausen, Principal Key Expert for Cybersecurity, Siemens Healthineers • Demystifying 'shared responsibility' for the cybersecurity of medical devices • Why can't we have patches for our device on patch Thursday? • About the importance of communication in vulnerability management
10:10	**The hidden perimeter: Managing third-party risk in connected care**
	Ty Greenhalgh, Industry Principal – Healthcare, Claroty • Third-party access is one of the most exploited threat vectors in healthcare – find out why it's escalating, especially through IoMT, IoT, and OT ecosystems that blur the boundaries of traditional network security • Examine real-world attack data, including volume, breach frequency, and operational consequences linked to unauthorised external access across connected medical and operational devices • Learn how NIS2 and the UK's Cyber Assessment Framework are reshaping expectations around third-party risk and secure connectivity in hospitals and critical care environments • Contrast global approaches, including lessons from the US healthcare sector's ongoing struggle to manage secure third-party access amid rising digital complexity
10:30	**People, pressure, and possibility in cyber-response**
	Martin Jarvis, Incident Management Lead, Cyber Security Operations Centre, NHS England • What trips you up – lessons learned from navigating real-world cybersecurity incidents and how to get ahead of them • Managing an incident in unfamiliar environments • Why your team is your greatest asset, and how to build it, keep them motivated and mission-ready • Embracing opportunities for growth, improvement, and transformation that can emerge from a cybersecurity breach
10:50	Comfort break
11:00	**Is there really a cybersecurity skills gap?**
	Nasser Arif, Cyber Security Manager, LNWUH NHS Trust & THH NHS Foundation Trust • Addressing the so called cybersecurity skills gap within the healthcare sector • Highlighting the benefits of focusing on transferable skills • Practical tips and tricks to improve the security culture within your organisation
11:20	**Securing healthcare: How Attack Surface Management protects critical systems & digital frontline**
	Nick Palmer, Technical Lead, EMEA, Censys • Healthcare organisations face an expanding digital attack surface, making full visibility into internet-exposed assets critical • Attack Surface Management (ASM) is essential to identifying security blind spots and mitigating cyber-threats in real time • Leading healthcare providers are integrating ASM with existing security stacks to proactively defend against attacks • Real-world use cases show how ASM helps reduce risks, enhance security operations, and protect patient data
11:40	**Information governance & cybersecurity: Guardians of the data**
	Seema Srihari, Information Governance Manager & DPO, North East Ambulance Service NHS Foundation Trust (NEAS) • How do we ensure compliance, policies, and training protect NHS data? • Safeguarding patient data while embracing digital transformation • Cybersecurity and IG: two sides of the same coin • AI governance
12:00	**Email security in healthcare: From threat to trust**
	Eltjo Hofstee, Global Director Sales, EasyDMARC • Covering the latest email security and deliverability challenges in the healthcare sector • The latest research from May 2025 on DMARC adoption and phishing, and how public and private sector healthcare organisations need to comply with the latest directives and regulations • Showing the best practice example for successfully securing your healthcare domain and email infrastructure
12:20	**Ransomware in healthcare: The growing threat to patient safety**
	Manit Sahib, Ethical Hacker, The Global Fund • Why healthcare is the #1 ransomware target – why attacks are increasing and how ransomware gangs break in more easily than expected • Real-world hacking insights – firsthand stories from ethical hacking operations and the biggest security gaps in healthcare, including legacy tech, access control, and the lack of real-world testing • Why traditional security fails – the limitations of compliance checklists and why conventional security tools don't stop ransomware • Building real ransomware resilience – what healthcare CISOs and IT leaders must do NOW to avoid becoming the next headline
12:50	Chair's closing remarks
13:00	Conference close
